### HOW TO RIDE ON DEDICATED CYCLING PATHS?

- ⚠ If you see a pedestrian/cycling path, use it by riding on the cycling part – it has a bicycle painted on it, in many cases in red. Avoid riding on the pedestrian part. If pedestrians are using the cycling lane, give them a friendly warning of your approach with an audible signal.
- ⚠ Pedestrians have the right of way where there is a marked pedestrian crossing on the cycling path.
- ⚠ Where a cycling path crosses a roadway outside intersections, cyclists must give way to vehicles driving on the road to be crossed.
- ⚠ If you see a STOP sign at the end of the path before the roadway, stop and make sure you are safe.
- ⚠ Where the cycling path crosses a roadway and cyclists have the right of way, cyclists may only proceed once they have assessed the distance to approaching vehicles, their speed and safety.
- ⚠ Where the cycling path crosses a railway crossing, special care must be taken to push the bicycle through the maze across the tracks.
