**UN VĒL UN VĒL...**

“Hellen” studio is a place in Ventspils, where creativity and imagination live. The studio is run by artist Ieviņa Zeimane. The artist has spent most of her professional life – 28 years – at school, teaching children to be creative in home economics classes. Hellen studio currently hosts various gastronomic and creative master classes for both children and adults.

Hellen’s studio also creates beautiful and warm women’s and children’s clothing and accessories for the cold seasons, as well as various interior decorations and treats for those who want to purchase ready-made products to pamper themselves or make wonderful gifts for loved ones.

In my free time, I will also offer the studio’s cozy spaces for organizing closed events or private master classes.
