### Why Fire Kebab?

- **Authentic flavor.** Our food is cooked over live fire—not electric grills. Each kebab is infused with a smoky, grilled aroma you won’t find anywhere else.
- **Handmade and quality.** The meat is marinated on-site according to a special recipe, the sauces are homemade, and every ingredient is carefully selected. No compromises—just authentic flavor!
- **A passion that became reality.** Uguns Kebabs is not just a business—it’s the flavor of my life. From the idea to the first blazing grill, every step has been driven by inspiration and the desire to create something truly special.
