

“Little Explorers Workshop: The Magical Rainbow” for preschool children at the VIZIUM Science Centre

Foto autors Ventspils Photo Archive

Preschool-aged children have the opportunity to participate in the “Little Explorers’ Workshops,” where, through games, play, and engaging in fun activities with cheerful instructors, they can not only have a great time but also develop new skills and gain knowledge.

Little explorers will have the opportunity to create a real colorful rainbow. We will explore how colors can layer and create a true colorful miracle. In this way, we will develop an understanding of density and color differences.

The registration form can be found [here](#).
