On July 2nd at 1:30 PM, the seminar “Export Afternoon” will take place at the Pope Cultural Center.

We invite entrepreneurs to the seminar “Export Afternoon,” where we will introduce the support opportunities offered by the Latvian Chamber of Commerce and Industry (LCCI) to promote the export activities of Latvian companies. There will also be a chance to hear inspiring experience stories directly from the entrepreneurs themselves.

Export is one of the most important drivers of growth for Latvian companies. However, the path to new markets requires both knowledge and partners. The Latvian Chamber of Commerce and Industry (LCCI) offers extensive support to companies wishing to take the next step in export development – from consultations and business visits to international contacts and participation in global organizations.

The seminar will explore ways to strengthen the competitiveness of Latvian companies in export markets, emphasizing international cooperation, economic diplomacy, and practical opportunities offered by the network of representative offices. Current plans and activities in foreign markets will also be discussed. In the second part of the event, entrepreneurs will share their personal experiences in exporting, revealing both challenges and success stories.
