

VIZIUM Science Center Science Show

“Before the Ashes”

Foto autors Ventspils Photo Archive

Fire – it can be warm and calm like a candle flame, but also powerful, loud, and dangerous like a tornado. In this exciting science show, we will explore how fire behaves in different conditions, why it sometimes dances in colorful flames, and how to control fire safely. With surprising experiments, we will reveal the power, beauty, and mysteries of fire – explained in scientific terms, but in a fun and easy-to-understand way!

You can purchase tickets at the VIZIUM box office or [here](#).
