

Technology Clubs and Adult Education Fair

This year, for the first time, the Ventspils Digital Center will organize an education *fair* where everyone interested will have the opportunity to learn more about the new club season, as well as training opportunities and updates in adult education.

The event will take place in an open atmosphere in the foyer of the VIZIUM Science Center — students and parents will have the opportunity to meet all the club instructors, who will introduce the content and programs of their clubs. There will also be a chance to see some of the equipment that students will use during the Technology classes.

The event will provide students and parents with the opportunity to get to know and talk with the club instructors, as well as gain a deeper understanding of what children can actually learn in these clubs, so everyone can choose the one that best suits their interests.

September is the time when adult education also resumes with a fresh boost, so the Digital Center will welcome adults who want to improve their digital skills. The adult education coordinator will share information about upcoming courses and technology workshops, as well as the fantastic opportunity to register for training sessions that are free for all Ventspils residents!

Location: Foyer of the Ventspils Science Center VIZIUM

No prior registration is required!
