Kicking off the new school year, the Ventspils Science Center VIZIUM invites all curious minds to embark on an educational adventure – a variety of activities will offer opportunities to experiment, experience fiery moments in science shows, and learn more about drone piloting. September will also feature Scientist’s Night 2025 and activities for young researchers. In September **VIZIUM workshops will take place on Saturdays and Sundays at 13.00.** This month’s creative workshop theme is “Creative and Safe,” where visitors will learn about the safety rules to follow while conducting experiments and will get hands-on experience with simple chemistry experiments. Participants will observe various chemical reactions, experiencing science in a safe and engaging way.

Everyone is also invited to attend the science shows, **which will take place from Thursday to Sunday:**

- **Thursday – Friday** at 12:00 – “Before the Ashes”; 14:00 – “Journey Through Science”
- **Saturday – Sunday** at 12:00 “Before the Ashes”; 14:00 “Journey Through Science”; 16:00 “Before the Ashes.”
- On Tuesdays and Wednesdays, the science show is available for groups of 10 or more, by prior reservation.

**On September 4th at 16.00** On September 4th, the VIZIUM Science Center invites everyone interested to participate in a seminar on unmanned aerial vehicles (drones) organized by the **Civil Aviation Agency (CAA)**. The seminar will take place in the VIZIUM conference hall on the 2nd floor, Rūpniecības Street 2. Participation in the seminar is free of charge and no prior registration is required.

Additionally, **On September 26, from 6:00 PM to 10:00 PM** Everyone is invited to participate in **VIZIUM’s Scientists’ Night 2025** activities. During this free event, VIZIUM will host interactive stations featuring experiments, brain teasers, creative workshops, and hands-on technology experiences.

On weekends, from 10:30 a.m. to 12:30 p.m., VIZIUM hosts the “Little Researchers’ Workshops,” where preschool-aged children can spend time with science center instructors, engaging in creative and educational STEM activities, as well as playing in the Little Researchers’ Gallery. **More information and registration for the workshops are available here:** [www.adre.se/pieteiktiespetnieki](http://www.adre.se/pieteiktiespetnieki).

An integral part of the school year’s start is student field trips, and this year VIZIUM has prepared a particularly exciting addition – **the “STEM and Civic Engagement” lessons**. These are funded by the European Social Fund and the Latvian government, so we encourage teachers to book a trip on their preferred date and time without delay: [www.adre.se/stemdarbnicas](http://www.adre.se/stemdarbnicas) Tickets for the creative workshops, exhibition hall, and science shows can be purchased on the website [www.vizium.lv](http://www.vizium.lv) or at the VIZIUM Science Center ticket office. For more information, call 66776633, email [info@vizium.lv](mailto:info@vizium.lv), follow VIZIUM on social media (@viziumventspils), or visit the website [www.vizium.lv](http://www.vizium.lv).

*Please note that during events and training sessions organized by the VIZIUM Science Center, for the purpose of ensuring openness of information and for illustrative artistic goals, publicity, marketing, and interviews, photography, video, or audiovisual recording may be conducted. Photos and videos may be published on the VIZIUM Science Center’s website [www.vizium.lv](http://www.vizium.lv), as well as on social media platforms such as Facebook, Instagram, and TikTok.*
