

“Little Researchers Workshop: The Beauty of Nature” for preschool children at the VIZIUM Science Center

Foto autors Ventspils Photo Archive

Preschool-aged children have the opportunity to participate in the “Little Explorers’ Workshops,” where, through games, play, and engaging in fun activities with cheerful instructors, they can not only have a great time but also develop new skills and gain knowledge. In the lessons, children will learn about various natural phenomena through experiments, exploring them with their eyes, touch, and senses. After observations, children creatively depict what they see in drawings, learning to notice and appreciate the beauty of nature. The registration form can be found [here](#).
