

“Little Researchers Workshop: Rainbow in a Jar” for preschool children at the VIZIUM Science Center

Foto autors Ventspils Photo Archive

Preschool-aged children have the opportunity to participate in the “Little Explorers’ Workshops,” where, through games, play, and engaging in fun activities with cheerful instructors, they can not only have a great time but also develop new skills and gain knowledge.

Little explorers will explore the world of natural phenomena, where colors will come to life in an unusual way. Children will experiment by reproducing rainbow rain – bright drops will slowly slide down like a magical natural wonder in a jar. It will be an exciting opportunity for children to see how different substances create amazing visual effects.

The registration form can be found [here](#).
