

Flower sculpture ZIEDU PULKSTENIS

Foto autors Ventspils Tūrisma informācijas centra foto arhivs

The diameter of the watch is 5 meters.
It has hour, minute and second readings.
In summer, around 2,500 flower seedlings are planted at the base of the clock, but in winter it is decorated with frost-resistant plants and special lighting.
The flower clock rings every hour.
Created in 2022.
