

Fountain MATRIX

Foto autors Ventspils Tūrisma informācijas centra foto arhivs

The technological design of the fountain was developed by Aqedukts (Gints Jaudzems).
Along with new attractions a new fountain was opened in Adventure Park in 2013. It has 36 illuinated water jets, 10 of which are laminar, which means taht visitors can change the operation mode of the fountain.
The water spurts can reach up to one and a half to two meters in height.
There is a recreational area benches next to the fountain.
