

Fountain KĀPU PRIEDE

Foto autors Ventspils Tūrisma informācijas centra foto arhivs

Fountain is constructed in 2005 in the centre of Pārventa (author Gunārs Platpīrs).
The “Dune pine” fountain is located in the center of Parventa.
The fountain is styled as tree with water nozzle on its branches. A special programming system provides multi-form water stream from branches – sometimes waterfall, sometimes rain or fog.
The diameter of the fountain is 9 m and its height is 5 m.
