Concert performance – a tribute to love. Love cannot be told. It can be experienced, hurt, made happy, sung, danced. We each have our own Love, our own dream of love and the path to it. Choreographer Agris Danilevičs has surprised his friends and fans of talent in the midst of his anniversary year! He is ready to reveal another of his passions, which he has kept secret until now – a call to express his feelings, his thoughts, longings and experiences in the lines of poetry.

Agra Danilevich's poetry dedicated to love will resonate with dance, rhythms of passionate Spanish music and poignant lyrics. Music, dance and song will dance and sing love stories without telling them.
