

Wake Park

Foto autors Ventspils Tūrisma informācijas centra foto arhīvs

The Ventspils Adventure Park Wake Park is located by the southern side of the Lemberga hūte hill.

Water reservoir is 70 x 140 meters. Wake Park offers wakeboarding services, using a rope system – linear rope system fixed at a height of 8 meters above water. Presently Wake Park has one floating structure – kicker, however in the nearest future number of kickers will be increased for wake-boarders to perform the most interesting and dynamic tricks.

No one will be bored in Wake Park, including fellow passengers, as additional activities such as a picnic area, a volleyball court with beach sand and a basketball hoop are available.

In order to practice wakeboarding, you also need special equipment – a wetsuit, a board, a helmet and a vest. Visitors can use their own equipment or rent it on site.

Reservation and additional information by tel. – +371 27370666.
