

Kaspars Pastuhovs

Foto autors Kaspars Pastuhovs

When I bought my first DSLR, photography became a very important part of my life. I spend all my free time traveling. I'm a photographer and it's based on three segments: pre-trip planning, on-site work, post-work work. But first, I, like most photographer friends, put a lot of pressure on myself to come back with meaningful photos. Pictures are the main purpose. Of course, traveling to a place can be very fun and quite attractive.

I take pictures of:

- Nature views
- Events
- Family photo
- Personal photo
