“I can safely say that my career as a composer began with this opera,” said Giuseppe Verdi. The loud triumph after the performance of “Nabucco” opened the era of fame for Verdi’s operas. The idea-philosophical basis of the LNO stage version of “Nabucco” is time. The theme of time can also be felt in the visual solution of the production – it is the course of the sun, the course of the circles of life, the course of the sides of the sky... But over everything spreads the Supreme judgment and assessment of our actions, thoughts and deeds. The performance in Ventspils is organized by SIA “Kurzemes Philharmonija”, financed by the European Regional Development Fund and the municipality of Ventspils.
