

West Coast Surf Club

Foto autors Rietumpiekrastes sērfa kluba foto arhīvs

We offer training in surfing, kitesurfing, SUP, windsurfing, wingfoiling, and small yacht sailing. We provide a full service, including training and equipment rental. At the surf club, you can also learn surfskating in a specially designed park, which simultaneously improves surfing techniques on the water. The club also houses a surfing museum where you can see boards painted by various popular Latvian artists, as well as a collection of boards made by legendary surfing masters from around the world. In the surf club, you can find all the information about surfing culture in Latvia and around the world. One of the club's founders is Renārs Bīrmanis, a pioneer of many water and winter sports in Latvia. Our club also organizes special camps for young people, where they can learn surfing and surfskating in the dedicated park over a week. The club also offers accommodation in the Surf Museum and the sauna house. In cooperation with Boards.lv, the surf rental in Pāvilosta, we organize corporate events with full-service offerings – surfing training, equipment rental, and catering. We organize group tours (up to 30 people) with the opportunity to try surfing and surfskating, as well as learn about the history of surfing and other water sports in Latvia and around the world.
