

The VIZIUM Science Centre's creative workshop “Kinētiskās rotaļlietas: Zinātne kustībā” (Kinetic Toys: Science in Motion)”

Foto autors: Ventspils photo archive

In January, every Saturday and Sunday at 1:00 PM, families, children, teenagers, and anyone else interested are invited to participate in the creative workshop “Kinetic Toys: Science in Motion.” Participants will explore how toys move and the physics principles behind their operation, reflect on the development of toys, and the role of engineering in it. Additionally, there will be an opportunity to design your own moving toys using various mechanical principles.
